# Go4Schools Guide

## Go4Schools: Registration and Access for PARENTS

Go4Schools is a platform used in school, completely **separate to Office 365,** to track attainment, attendance and behaviour. In order to access your parent account, you will first need to **register** with Go4Schools. You will set your own password (see below) during the registration process.

1. To access the site, please go to [www.go4schools.com](www.go4schools.com) and click on the Parents icon at the top of the main page to arrive at the log-in screen.
2. To request a password for GO 4 Schools, please enter your email address into the '**First-time User'** field.
   > **N.B**. The email address you use to enter the site must be the one that you provided for us on your data-collection sheet that was recently returned to school.
3. Click 'Please send me a password'.

4. A randomised password will then be generated and sent to your email address.
   Please note: if this email does not go straight into your inbox, check you junk/clutter mail.
5. Log into the site and view your child's page. Following this, you will be able to see your child's profile.

   See *Go4Schools Guide: General Information* for more details about the information available.
